Enthusiastic and Hard-Working System Administrator

Dear Director of Human Resources,

In my pursuit of new creative endeavors, I was excited to find the System Administrator opportunity with your company. As a progressive professional with both hardware and software experience, I believe that I can bring valuable contributions to your team.

Identifying innovative approaches and improved solutions to business challenges both motivate and drive me. Observation, inspiration, and determination are my foundation for success. My philosophy is that introducing fresh perspectives and new techniques allow businesses to evolve and grow. Similar to your company, my goal is to remain on the cutting-edge of advancements.

Formerly in my System Administrator role, my successes have stemmed from essential skills, charged with installing, supporting, and maintaining servers and other computer systems, and planning for and responding to service outages and other problems.

I have enhanced my problem-solving abilities and cultivated a reputation as a major contributor through communication and team-building. I am a collaborative team player who is always searching for opportunities to impart valuable insights. With these qualities, I am able to facilitate positive change and impacting outcomes.

I have a strong working knowledge of System Administrator in the industry. As a System Administrator, I am responsible for management of computer and server operations, large amounts of data, services and applications, and the protection and security of the data. I'm always happy to roll up my sleeves to get the job done.

I look forward to the opportunity to discuss my credentials and how my expertise can help your organization.

I am ready to put my expertise to work for the benefit of your organization.

Kind regards,
Amuda Ifeoluwa Opeyemi
